
PCD-500

- Press with headstock displaceable, reference PCD-500.
- Capacity 500 Tm with 1 double effect cylinder.
- Lower plate dimensions 2.600 x 1.600 mm.
- Headstock of the cylinder displaceable with electric engine.
- Maximum opening between plates 450 mm.
- Stroke of the cylinder 400 mm.
- Hydraulic group with pistons pump of variable flow.
- Maximum speed 10 mm x second.
- Speed at maximum capacity (500 Tm) 3 mm x second.
- Engine power 15 Hp.
- Machine weight 25.000 Kg.
- **Application: press for flatten steel plate on oxycut industry.**
